### About This File

Original Author: Morton Rokosz

I made this for a customer. You don't get it much bigger than this!!

- 192 speed dials
- 12 lines

Please follow these instructions to make use of more than 250 speed dials in a SwyxIt! Skin.

- Open the install folder for SwyxIt!. Locate the file 'SkinDefinition.dat'.
- Open it and find the line MaxButtonId=250

- Change 250 with the number of speeddials you want to be possible (max = 999), save the file and restart Swyxlt!

Enjoy!
